

PULSE: Intelligent Wealth Management

Elite Financial Clarity for the Modern Professional

Investor Pitch Deck

1. AT A GLANCE

Market Size	Technology	Model
\$15B+ Global FinTech	React 19 + FastAPI AI	Freemium + Pro (\$9.99/mo)

2. THE PROBLEM: Financial Blindness

Personal finance is locked behind slow-loading legacy software or disconnected banking apps that provide raw data without intelligence.

Challenge	Current Reality	Impact
Data Aggregation	Disconnected accounts	Financial blindness
Manual Entry	Tedious expense logging	User churn
Insight Gap	Raw lists, no trends	Stagnant saving
Receipts	Paper/PDF clutter	Tax stress

KEY INSIGHT: Professionals don't need a digital ledger; they need a high-performance **Financial OS** that automates the boring parts of wealth.

3. THE SOLUTION: PULSE

Pulse is a full-stack dashboard designed for precision. We bridge the gap between “transaction data” and “financial health.”

- **Dynamic Visualizations:** Real-time trends via Victory Charts.
- **Automated Tracking:** Intelligent logic for subscriptions.
- **Receipt Vault:** Secure AWS S3 cloud storage.
- **Rule-Based Sorting:** AI-powered categorization.
- **Performance First:** Optimized React 19 / FastAPI backend.

4. PRODUCT ECOSYSTEM

Feature	Description	Differentiation
Finance Dashboard	Real-time net worth / budget	Dark-mode, ultra-fast UI
Smart Receipt Sync	AWS S3 document management	Encrypted, searchable vault
Auto-Categorization	Rule-based transaction sorting	Zero manual input
Trends Engine	Predictive spending habits	Actionable insights

5. MARKET OPPORTUNITY

- **Total Market:** \$15B+ annually.
- **Target:** Gen Z/Millennials (Digital Natives).
- **Average User Spend:** \$1,000+/year on productivity/finance tools.

Segment	Characteristics	Value
Young Professionals	Tech-savvy, high engagement	\$9.99/mo conversion
Freelancers	Need receipt tracking	High Lifetime Value
Families	Need budget syncing	High retention

6. MONETIZATION STRATEGY

Three-Tiered Revenue Model

- **Free (Acquisition):** Basic dashboard, manual entry (\$0).
 - **Pro (Core Revenue):** Auto-categorization, S3 Vault, AI Trends (\$9.99/mo).
 - **Enterprise (B2B):** White-label for financial advisors (Custom).
-

7. COMPETITIVE ADVANTAGE

Our Moat:

- **Performance:** React 19 / FastAPI stack ensures sub-second load times.
 - **Cloud Architecture:** AWS S3 integration creates “sticky” workflows.
 - **Modernity:** Zero legacy bloat; built to scale on modern infrastructure.
-

8. GO-TO-MARKET

- **Phase 1 (Validation):** Beta launch to 500 early adopters.
 - **Phase 2 (Growth):** Influencer partnerships in productivity/finance niches.
 - **Phase 3 (Scale):** API expansion for white-labeling receipt management.
-

9. THE ASK: \$1.5M Seed Round

- **40% Product:** Scaling FastAPI infrastructure & AI rules.
- **40% Acquisition:** Performance marketing & influencers.
- **20% Operations:** Security audits & cloud hosting.

Goal: 100,000 Active Users, \$1.2M ARR in 18 months.
